I'm a talented and enthusiastic developer with four years of experience identifying web-based user interactions, creating and implementing incredibly responsive user interface elements using react, and creating powerful Api using RESTful concept. I have extensive experience working with Javascript and its frameworks/libraries (Nodejs and Reactjs) and would welcome any opportunity to expand my skill set.

EXPERIENCE

JUNE 2021 – TILL DATE

FULL STACK DEVELOPER, A'MOBI LTD

My major responsibilities at A'Mobi includes; designing and developing Api's, build UI and backend services for payment processing administration and management, define and document AWS best practices and strategies regarding application deployment and infrastructure maintenance

NOV 2019 – MARCH 2021

INTERN, A'MOBI LTD

Assisted developers in projects. Reviewed and tested new applications. Wrote documentations and design wireframe for web apps.

MARCH 2017 – OCT 2018

FRONT END DEVELOPER, TEETYTECH

Developed and implemented front end architecture to support user interface concept, worked closely with the UI/UX designer to transform designs into code.

EDUCATION

NOVEMBER 2015

B.LIS, UNIVERSITY OF MAIDUGURI, BORNO STATE, NIGERIA

Bachelor of Library and Information Science
