AYOBAMI **AJIBOLA**

FULL STACK DEVELOPER

Ini Bassey street Arab road Kubwa, Abuja, Nigeria · +234 8031957690
ayobamiajibola46@gmail.com · **LinkedIn** · **GitHub** · **Portfolio**

Dedicated and enthusiastic developer with four years of experience in web-based user interactions. I have extensive experience working with JavaScript, as well as its runtime environment and library (**Node.js and React.js**). My work is guided by the goal of creating solutions that use the best technologies to produce better user experiences using react and creating robust APIs with the RESTful concept.

EXPERIENCE

JUNE 2021 – TILL DATE
FULL STACK DEVELOPER, A'MOBI LTD

My major responsibilities at A'Mobi includes; designing and developing Api's, build UI's and backend components for payment processing administration and management, define and document AWS best practices and strategies regarding application deployment and infrastructure maintenance

NOV 2019 – MARCH 2021
INTERN, A'MOBI LTD

Assisted developers in projects. Reviewed and tested new applications. Wrote documentations and design wireframe for web apps.

MARCH 2017 – OCT 2018
FRONT END DEVELOPER, TEETYTECH

Developed and implemented front end architecture to support user interface concept, worked closely with the UI/UX designer to transform designs into code.

EDUCATION

- HTML
- CSS/SCSS
- NodeJS
- ReactJS
- PSQL
- MogoDB
- Sequelize
- AWS
- GIT
- REST API
- Redux
- Typescript

VOLUNTEER EXPERIENCE

- I am a member of the backend team working on the development of the **PO2023-Smart-App**. This solution aims to reduce election fraud in my home country Nigeria, by enabling party officials to report live election results in real time for transparency.
- I volunteer with an NGO, She ICT Society (SIS) to teach and make computer education applicable, easy, and free for young girls aged 8 to 16 in rural Abuja, Nigeria, with a mentorship program integrated for their self-development and growth.
